EXECUTIVE SUMMARY

- 9 Years of total IT experience as Web administrator, DevOps/Cloud Engineer and Solutions Architect.
- Leading 10 members' DevOps/Cloud team managing 15+ enterprise application for **Fortune 100 Company**.
- Architecting and designing resilient web hosting solutions with DR strategy.
- Hands on experience with automation/configuration management tools such - **Puppet/ Chef**
- Working experience with Continuous Integration and Continuous Delivery framework
- Experience with setup/configuration/support for Web / App tech stack – **Apache, Tomcat, IIS, varnish, nginx etc**
- Well versed with monitoring and APM tools like – **ICINGA, NAGIOS and Newrelic**
- POC for open source technologies and container services such as **Docker/Kubernetes**
- Scripting experience in **Bash and Python**
- Excellent troubleshooting skill with web applications hosted on different platforms (cloud / on-prem)
- Hands on experience for integration of tools for cloud setups and automated builds – **Scalr + Chef Integration, Jenkins automated build and deploy pipelines** integrating jenkins , nexus repo, Chef push jobs
- Well versed with ITIL framework having used ServiceNow for incident management, change management etc
- Well versed with Agile methodology – Using JIRA and Kanban dashboards for task management
- Moderate experience with admiration and management of NoSQL DBs – **MongoDB , RIAK**
- Designed and managed internal global CDN solution for customer – **Varnish cluster with purging mechanism**
- Part of **pre-sales team** pursuing DevOps, Cloud opportunities for perspective customers
- Worked on IT-IS, DevOps & Cloud RFP and RFIs
- **Consulting** assignments for customers looking to transition towards DevOps culture
- Worked on conceptualization of **application assessment tool for cloud migration** for large app portfolios.

TECHNICAL SKILLS & EXPERTIES

- Web Hosting : Apache, Tomcat, IIS, Varnish
- Operating System: RHEL 5.0, OEL 6.4, CentOS 7, Windows 2008
- Cloud technologies: AWS - EC2, ELB, EBS, Auto scaling, VPC, S3, IAM etc.
Azure – Virtual Machines, Load Balancers, Managed Disk, ARM templates
- Virtualization : Vagrant, VirtualBox, Docker
- Configuration management: Puppet , Chef
- CI/CD Tools : Jenkins, Nexus Repo
- Source Control : SVN , GIT, GitLab
- Monitoring : ICINGA(Nagios), Newrelic, Monit
- Load Balancers : LTM, 3DNS (GTM)

- Analytics : Splunk, Log Stash, Kibana
- Scripting : Shell, Python
- Queuing Services : RabbitMQ
- DBs : MySQL, MongoDB, RIAK, Elastic Search, Memcached

ACOMPLISHMENTS & AWARDS

- Award for Best process improvement project at TCS Corporate level in 2017. Cycle time of a deployment process was reduced for cloud applications by automating application deployment along with DB changes. Seamless integration of Jenkins, Sqitch DB management tool, Chef Push Jobs to deliver one click auto deployment.
- Received Start of Month award in 2012 for execution of migration of applications to new platforms and new open source custom monitoring solution
- Multiple awards for technical excellence throughout the career for outstanding contribution to project execution.

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (Nov 2017 – Nov 2019)
- Professional Scrum Master – I (Scrum.org)
- AWS Certified Developer (in-progress)
- Internal Lean Six Sigma Certification at TCS in May 2010

EDUCATION

- B.E Electronics from Fr. Conceicao Rodrigues College Of Engineering, Mumbai University in 2008

PRESENT EMPLOYMENT

- Devops lead with Tata Consultancy Services Ltd, Mumbai, Since Sept 2008.

Recent Courses / Workshops Attended
